

VOYCE FOR PAWS · FOR SHELTERS

Turn your at-risk list into rescues.

Your urgent animals are scattered across PDFs, spreadsheets and Facebook posts. Voyce turns your daily list into clean, shareable rescue cards — and gets them to people who can help, in time.

TO EVERY SHELTER TEAM

You're already doing the impossible.

Your staff and volunteers give everything — often on personal time, running on pure heart. The barrier was never effort. It's hours: turning a growing list into posts and outreach across a dozen channels. Voyce carries that part for you.

WHO YOU'LL HELP

The animals waiting for someone.

● Injured

● At risk

● Needs placement

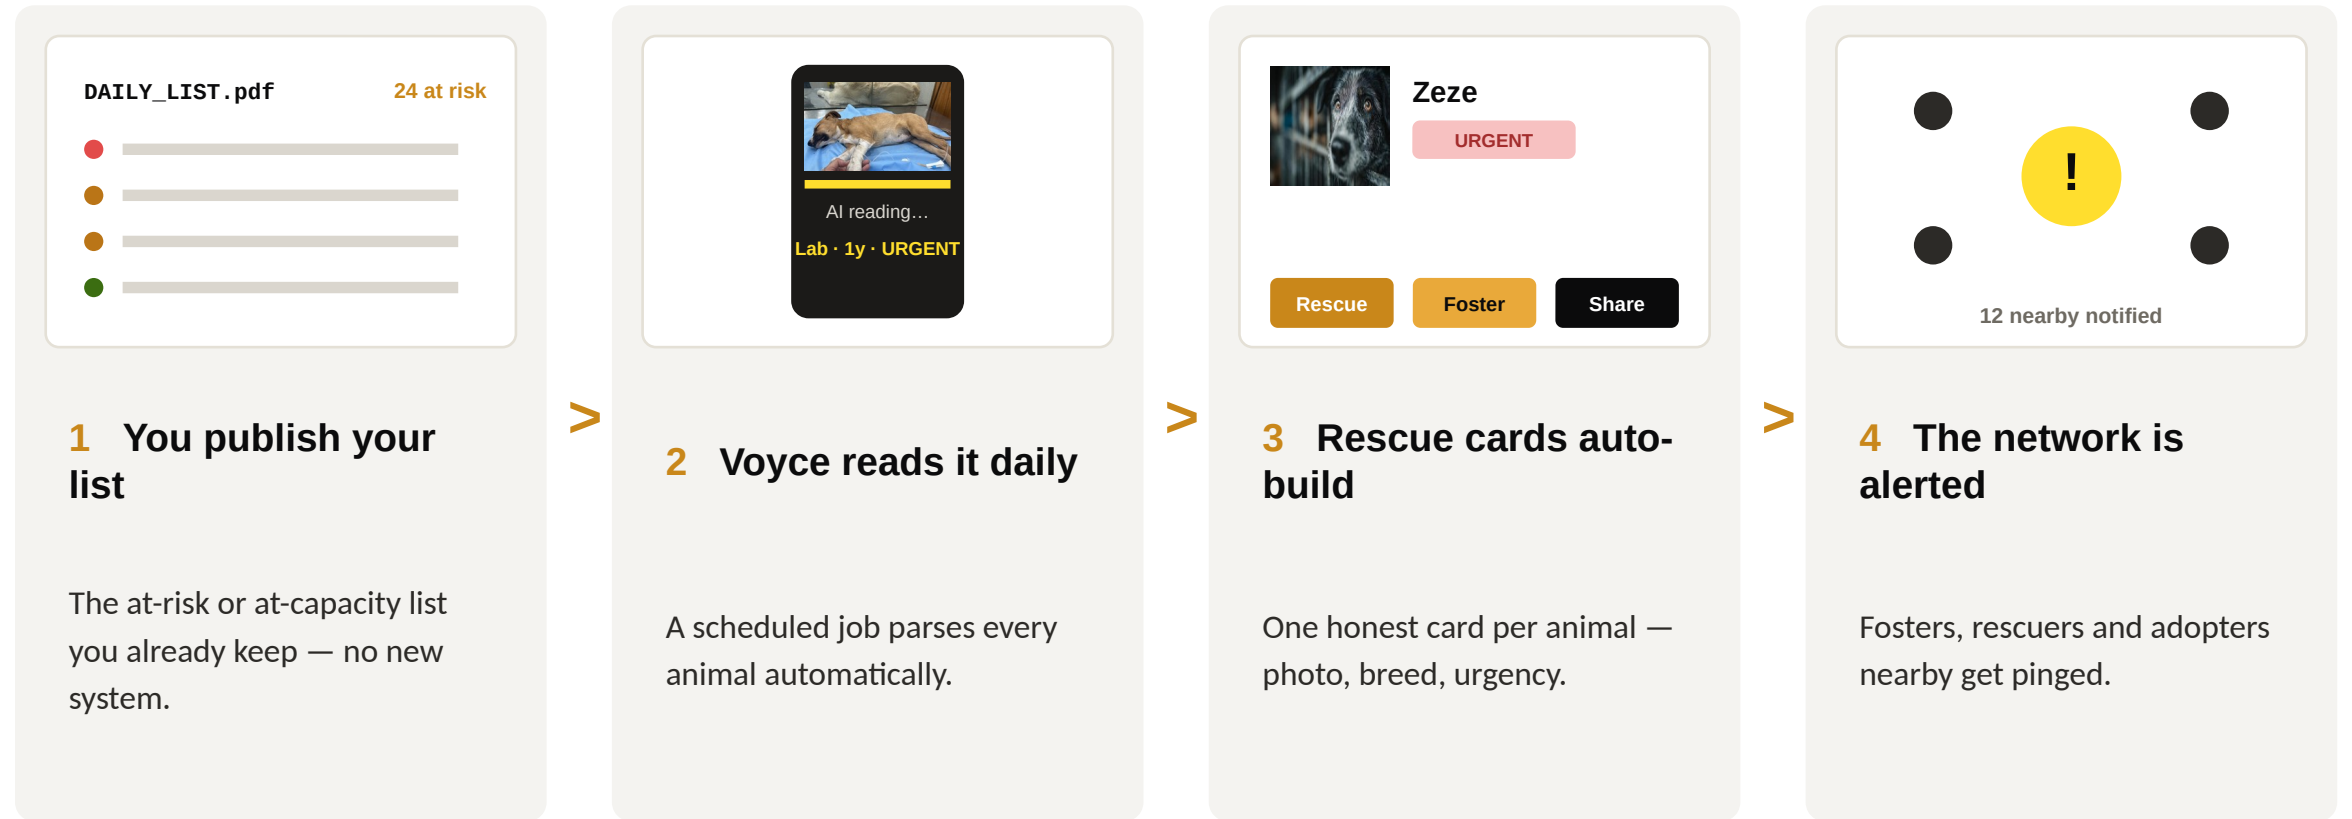

● Lost & found

Injured strays, dogs on a euthanasia deadline, shelter animals needing a foster, lost pets — Voyce moves them all through one network.

HOW IT WORKS FOR YOUR SHELTER

One list. The network moves.

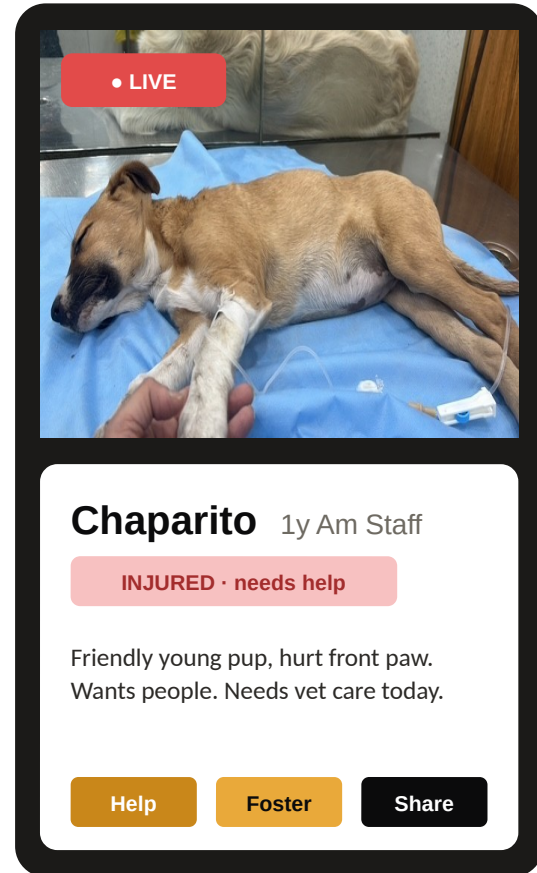

No human has to upload these — Voyce builds them for you.

IN THE FIELD, ON THE FLOOR

Or just snap a photo — posted in seconds.

For staff and volunteers who'd rather take a picture and post it right now — no list, no typing, no login.

1

Point your phone

At a stray, an injured animal, or a kennel — one photo or a quick video.

2

Voyce writes the card

Breed, age, condition, urgency and an honest bio — built in seconds.

3

Posted and seen instantly

In front of fosters, rescuers and adopters nearby — help can start right away.

Help is one photo away — from anyone on your team, anywhere.

YOUR STANDOUT FEATURE

The Shelter Post Generator.

Turn a euthanasia or at-capacity list into clean, accurate, shareable rescue posts — in minutes, not hours.

WHO'S STEPPING UP

Sarah K. 8m

Foster

I can pick her up today — I foster small dogs.

Austin Pets Alive! 22m

Rescue

We'll pull her. Arranging transport now.

Maria G. 35m

Adopter

Is she good with kids? I'd love to meet her.

No more wondering if your post reached anyone — every foster, rescue and adopter who raises a hand shows up here, in one place.

WHAT YOUR SHELTER GETS

More saves. Less overhead.

Faster intake & less data entry

Animals arrive with an AI rescue card already built — your team keys in less.

Wider reach, instantly

People who find animals connect straight to you — no more missed Facebook posts.

More fosters & adopters

Your foster and adopter network is alerted the moment an animal is urgent.

One-tap share cards

Turn any animal into a social-ready post in a single tap.

Walk-and-scan intake

Point your phone down a row of kennels — Voyce detects each animal and builds a card.

Matched, not spammed

Alerts go to the right people by location, breed and urgency.

WHAT YOU DON'T HAVE TO WORRY ABOUT

You stay in control.

1 Your data stays yours

We never sell or share your list. You keep control of your animals' information — and you can leave anytime.

2 No new system to learn

We watch the public at-risk or at-capacity list you already keep — or you add an urgent animal in seconds.

3 Honest AI, clearly labeled

The AI assessment is marked preliminary — reporter notes and vet confirmations stay separate.

4 We never over-promise

Voyce alerts and shares — we never promise a rescue we can't guarantee. Every decision stays yours.

GET STARTED

Pilot with your shelter.

Set up in about two minutes. You keep your list; we do the rest — and your urgent animals start reaching the people who can help. Free to join — municipal shelters need no paperwork; 501(c)(3) rescues just share their IRS letter.
